

Security

WINDOW FILM

PEACE OF MIND

7 Times Thicker
THAN STANDARD WINDOW FILMS

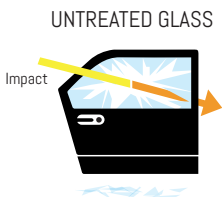

3 in 1

WINDOW FILM

- Holds shattered glass shards together, protecting your family
- Helps prevent smash and grab break ins, protecting your valuables and work tools
- Available in clear or tinted film, to suit your lifestyle.

HOW IT WORKS

With Security Window Film, the window may still crack, but the glass fragments adhere to the film.

Have peace of mind protection everytime your family is in your car.

Security

WINDOW FILM

Providing a strong, protective barrier between you and the glass in the event of an accident, the film helps to hold glass fragments together. The strong adhesive between the film and your glass window not only decreases the likelihood of injury, but also guarantees the film will last without bubbling or peeling; backed by a lifetime nationwide warranty.

Security Window Film is also the best defense against 'smash and grab' attacks. Working as another entry barrier to your vehicle, the film slows access to your valuables. The increased time to break-in and additional noise calls attention to the thief, increasing the thieves chance of withdrawal. If you're in the car during the attack, the slowed access will give you time to escape and call the authorities.

How to care for your tint...

This highly durable film has been installed with special care, here's some instructions and maintenance tips to help enhance and prolong its life.

- Do not clean the glass during the drying period, normally 21 days.
- To clean, we recommend you use the approved Tint a Car window tint cleaner for cars, homes and office films. Do not use abrasive cloths, brushes or powder.
- A slightly hazy or milky appearance caused by the water between the film and glass will quickly disappear along with any bubbles. Small particles or 'points' may remain. These are generally only visible from the outside and are inherent to film adhesives. They do not affect the performance of the film in any way.

Why choose Tint a Car?

- Peace of mind lifetime Warranties at all stores, New Zealand-Wide
